PROCESS EQUIPMENT DESIGN

Nova has built an enviable reputation in the process equipment industry, offering a detail design service across a wide range of sectors.

To aid in the design and production of drawings we have invested in dedicated CAD software designed for specific industries.

We have successfully worked on a wide variety of process equipment design projects ranging from automotive paint plants and power stations to water treatment plants and building services.

Over the years, Nova have successfully supported clients in projects ranging from a few days work to finalised as built drawings, through to complete automotive paint plants, taken from concept drawings through to the production of detailed manufacturing drawings.

We offer Process Equipment Design for the following:

Water Treatment

Pipework

Heat Exchangers

Electrical Building Services

P&ID Drawings

Civil Foundation

Metal Finishing Plant

As-built Drawings

Boilers

Sprinkler Systems

WHY CHOOSE NOVA DESIGN?

OVER 30 YEARS INDUSTRY
EXPERIENCE

WEST MIDLANDS BASED
SERVICING NATIONALLY

PREMIUM SERVICE AT
COMPETITIVE PRICING

EXPERIENCED MECHANICAL
DESIGN ENGINEERS
