

ABOUT US

WHO ARE WE ?

Nova Design are a UK based supplier of sub-contract mechanical design engineering services. With our modern design office based in the West Midlands, we have 40 seats of the latest in 3D solid modelling and 2D drawing CAD software and associated design tools giving a capacity of 2000 man hours per week.

Nova can undertake engineering drawing and draughting projects across the majority of mechanical engineering design disciplines regardless of the size of project, with no job being too big or too small. We possess an experienced team of mechanical design engineers who are flexible, working to our clients quality standards.

ENGINEERING & DESIGN

Our staff in house are a professional and dedicated team of qualified design engineers and detail draughtspersons providing mechanical design services. We are focused on providing this service to form long term close working partnerships with our clients to deliver innovative design solutions to their mechanical engineering problems. Our team of engineering design consultants are totally committed to achieving a total quality solution.

QUALITY ASSURED – “RIGHT FIRST TIME”

To this end, Nova Design have successfully implemented and run a quality system for a number of years. Beginning with BS5750 and now running a regularly audited ISO 9001:2015 system.

Nova are certified for the “Provision Of Engineering Design Services”.

Nova’s client portfolio has grown considerably over the years and now includes both OEM and first tier suppliers to industries including Automotive, Aerospace, Process Equipment and Nuclear.

It is the specific policy of Nova Design Limited to provide its engineering design services to an ISO 9001 quality assured system – the highest professional standard which will meet and exceed client requirements. In order to meet these requirements in a cost-effective manner the company will operate a quality assurance system certified and approved to BS ISO 9001:2015 – Dedicated to the “right first time” approach.

The Nova Design team is committed to total quality, and are BS EN ISO 9001:2015 approved with a scope of certification “**The Provision of Engineering Design Services**”.

At all times, we work in partnership with our clients. This ensures all parties are kept informed at every stage of the project and are actively involved so that the service delivered exceeds their expectations in every way. The company recognises that the objectives for quality cannot be achieved without the full cooperation and commitment of all employees, and will ensure that adequate resources are available to achieve this.

Recent projects successfully completed include design and detailed design of :

- ‘Body In White’ tooling / Robot cells for a number of new vehicles – end clients Jaguar Land Rover / Volvo Cars / Mercedes Benz
- Ground Support Equipment for gas turbines (civil aerospace) – end client Rolls Royce plc
- New engine pallet systems – end client Ford Australia / Ford China
- Ground Support Equipment for gas turbines – industrial power generation – end client Industrial Turbine Company UK Limited – UK and North America sites.
- Detailed design of automotive paint plant – end client Chrysler Motors, Mexico
- Detailed design of water treatment projects – design and detail of new screening systems – end client Severn Trent and Anglian Water Boards
- Site surveys, layouts, design and detailed design of mechanical handling equipment – trim and final area of vehicle production – various sites – end client Jaguar Land Rover
- Detailed design of a number of new cranes – end client – Nuclear Decommissioning Authority – Sellafield Limite

AN EYE ON THE FUTURE

From a recruitment perspective, Nova are continually looking for additional staff to join our ranks, ranging from graduates looking for their first employment through to more experienced engineers looking for a change of career direction. Working closely with Dudley College, Aston University, Wolverhampton University and Birmingham University engineering departments Nova are committed to assisting the next generation of students into the world of engineering design and manufacturing.

WHY CHOOSE NOVA DESIGN?

OVER 30 YEARS INDUSTRY EXPERIENCE

WEST MIDLANDS BASED SERVICING NATIONALLY

PREMIUM SERVICE AT COMPETITIVE PRICING

EXPERIENCED MECHANICAL DESIGN ENGINEERS
