Nova is always looking for additional mechanical design engineers/detail draughtspersons to join our team for both internal and external (on client premises) requirements.

We are interested in design engineers/detail draughtspersons with mechanical engineering experience together with recent university graduates (BEng Mechanical or Production Engineering) and college graduates with vocational qualifications (ONC/HNC Mechanical or Production Engineering).

Whether you are looking to join us in a permanent position or contract placements, are a sub-contractor working as a Limited Company or via the PAYE system Nova are interested in recruiting your skills to build our teams experience and knowledge. Begin by submitting your Curriculum Vitae and commence your next career move with Nova.
